Thank you. One thing that might be helpful before we speak again would be if Hartz could present how the proposed mitigation would impact the MOEs using the tables that EPA previously provided (attached). We will try to find a time that works with your schedule.

Regards,
Trish

Hope you had a great weekend and are staying safe, Wednesday after 2pm and Thursday after 2:30pm work for me. I am working on the cat collar label mitigation revisions and could have them for discussion on Thursday but Wednesday will not work if we want to include these in discussion. Not sure what Jeff's schedule is this week.

Jeff, Joe –

Thank you for your time last week. We are looking into aspects of Hartz's proposal on our end and should have more information later this week. We would like to have technical call (without OGC) to go over some of the mitigation details and timing in Hartz's proposal. Would sometime Wednesday or Thursday afternoon work for you?

Regards,
Trish
